#### UPDATES & REMINDERS

- Great news! Nassau County now has local emergency pet care. Robinson 24-hour Emergency Hospital opened June 29th on Old Nassauville Road. I stopped in for a quick visit to find out their protocol for treating the pets of absentee owners. They still need to determine that, but I'll update everyone once I get more info. Hopefully, we'll never need it.
- I'll be on vacation from September 5th -11th. If you have hard travel dates at that time, please contact me soon to check if Linda will be available for your dates.

## WHEN A PET DIES AT HOME.

Recently, someone asked me what to do if their pet passed away at home. It's a good question; only a few may know the best action.

Take a look at this informative article for the 8 things you need to do if your pet dies at home unexpectedly.

<https://www.clocktimelesspets.com/about-us/blog/when-a-pet-dies-at-home-heres-8-things-youll-need-to-do>.

If you decide to let your pet go using in-home euthanasia, Dr. Katie is an excellent resource.

All your pet donations, a full car load, for the first half of this year went to Corbins Corner. They offer essential pet supplies to low-income families to ease the financial burdens on pet owners. They help with food, litter, toys, low-cost microchipping, vaccines, and spay/neuter programs.

All your generous donations loaded and ready for drop off.

Thanks so much for everything; your donations, tips, gifts, referrals, thoughtful notes, and kind Google reviews. I appreciate it all.

Have a great summer!

Renee Martin
